THE LOCAL GOES GLOBAL

WHEN THE SUBSTANCE LEAVES SPACE TO IDEAS

Perhaps, imperfection is the key to creativity: new possibilities, new goals, subsequent objectives. Creating sofas means sewing fabrics in order to weave relationships. It means having the luxury of sharing a family's emotions from far away. We can feel them from here, wherever you are, no matter which family you want to be. It is the need to create and share beauty. A transcendent, peerless, human beauty. Imperfect geometries, material components, harmonious contrasts.

**We nourish love for
imperfect things.**

We feel free.

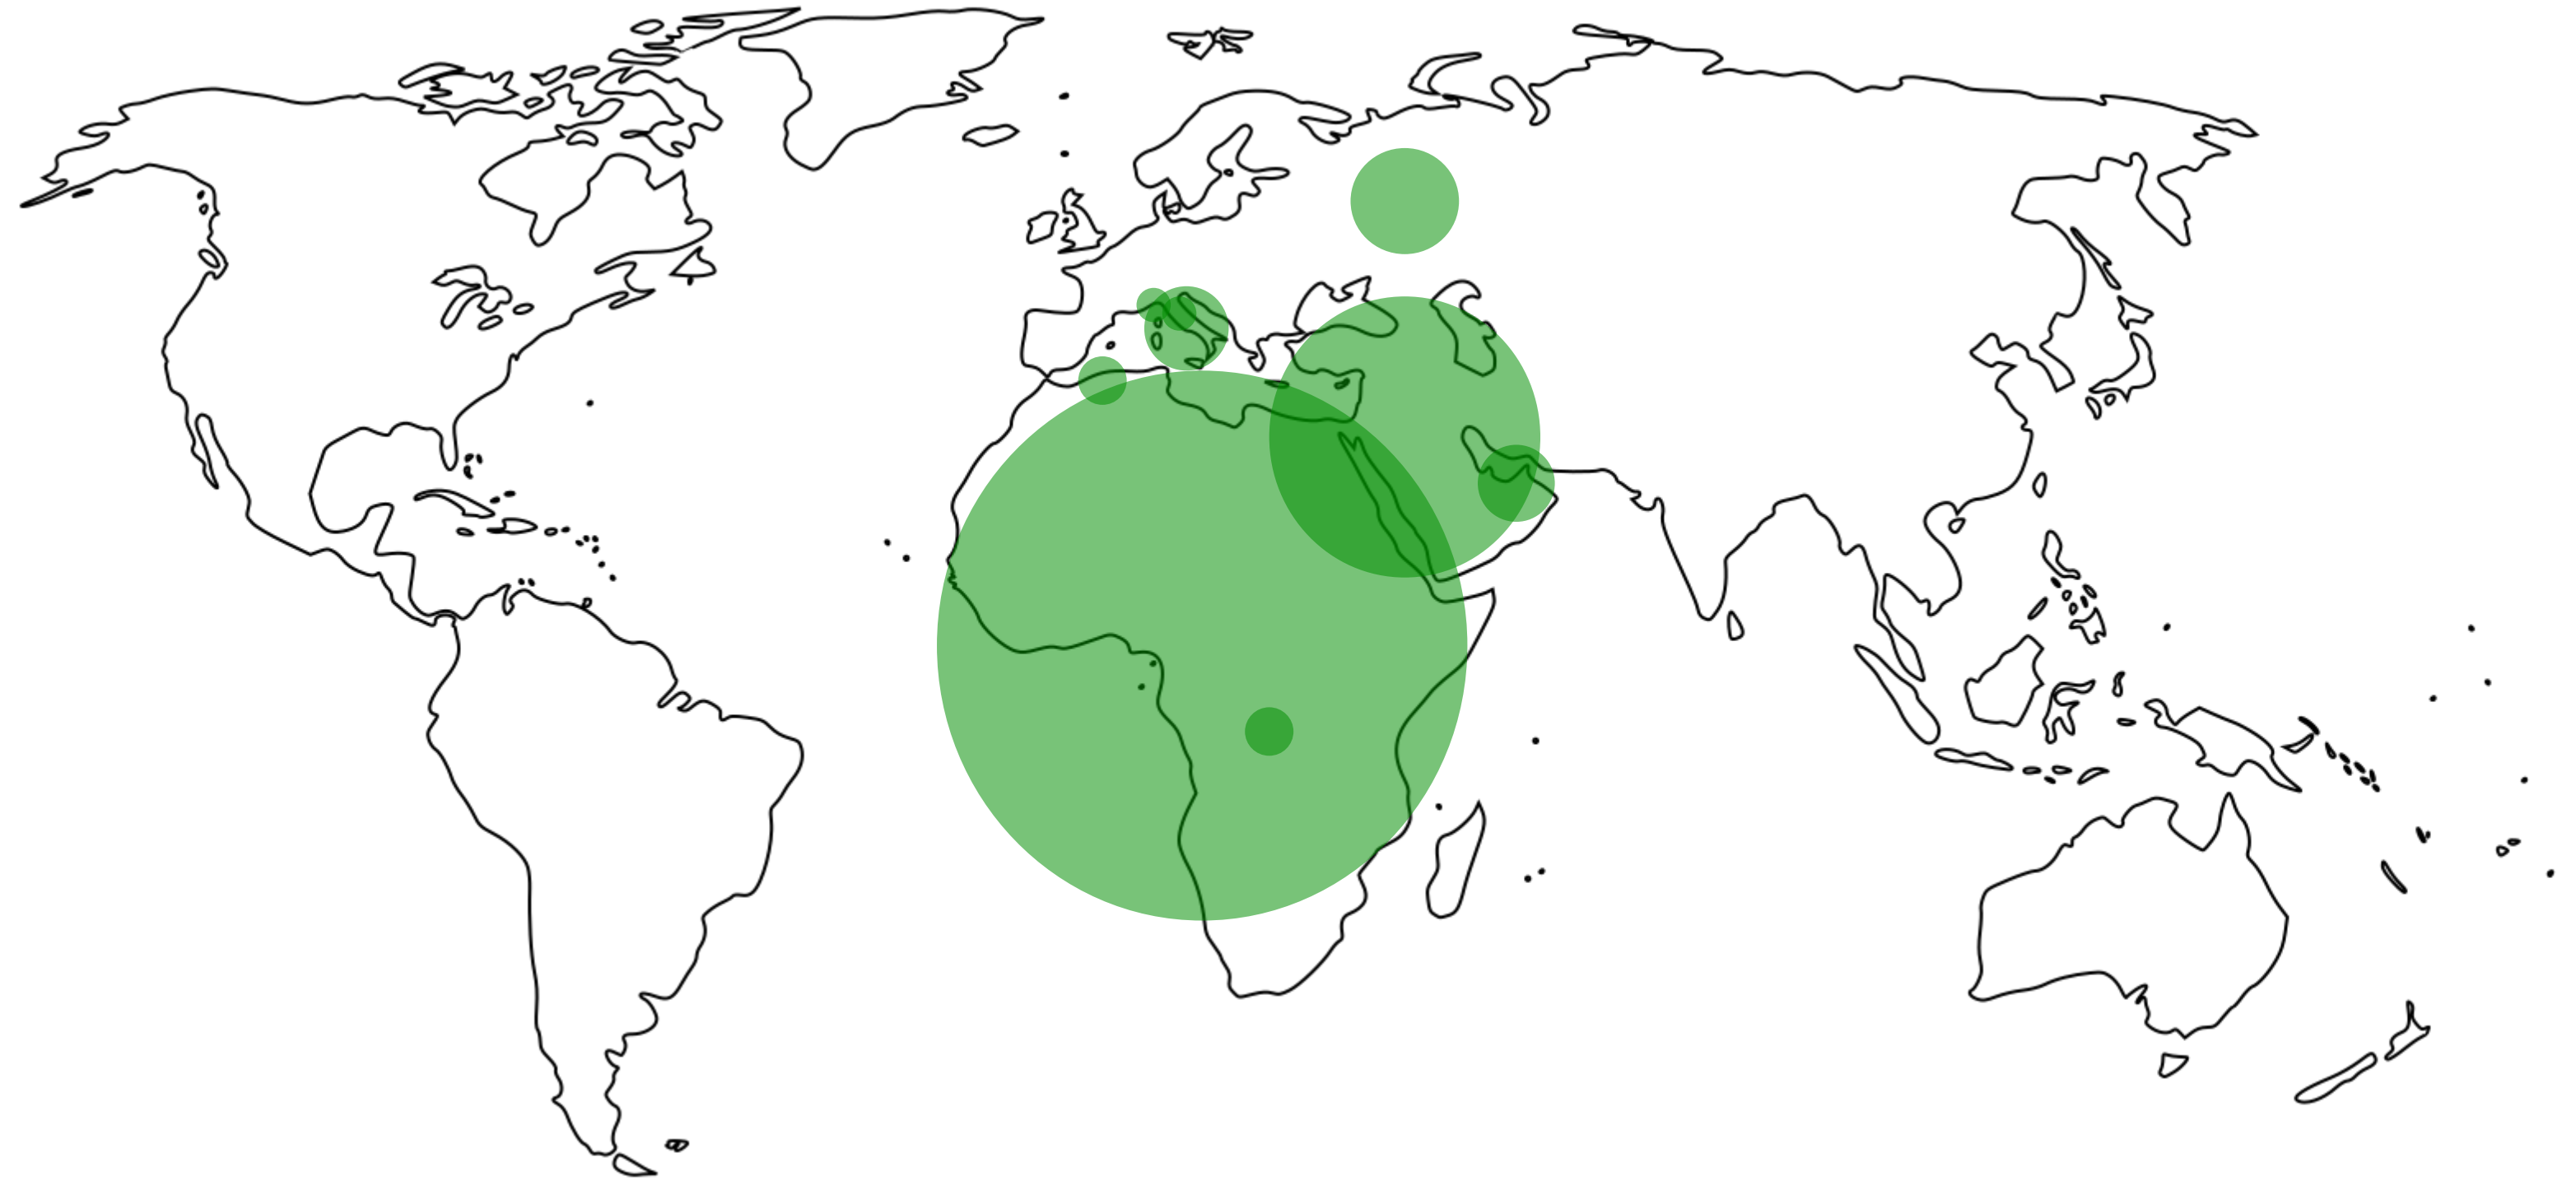

This is us.

This is Prane Design.

Since then, our principle aim is that to promote Italian craftsmanship throughout the world: it is an act of love for our work, for the companies that work with us and for our customers.

Those who choose us see our subtle and timeless elegance and comfort. We offer the possibility of personalising the furniture by always inviting customers to ask different questions, in order to create unique pieces for their hotels and residencies.
